Unterlinden Suspension LED 2700K Aluminium

DESIGN BY:

Herzog & De Meuron
2014

MATERIALS:

Aluminium

DESCRIPTION:

A suspension lamp designed for museum lighting, combining the aesthetic charm of an old-time object with high technology and engineering. Materials: lamp body in die-cast aluminium or bronze; ceiling rose in technopolymer; ceiling fixing plate in steel. Specification: the light source is a COB LED to ensure a maximum luminous efficiency. The light beam is also controlled by a high efficiency optic polymeric lens especially designed to collimate light. The lamp body has a dual function: dissipate the heat produced by the LED source and direct the luminous flow downwards.
